

# THE CHAMPION CHRONICLE

VOLUME 11

CHAMPION, (Alberta) THURSDAY, SEPT. 5, 1929

NUMBER 16

## J. T. Stephenson

Phone 7 High Class Grocer P.O. Box 200

### For the Week End!

Apricots  
Peaches  
Bananas  
Cukes  
Ripe Tomatoes  
Celery  
Plums and Apples

We are in a position to take care of your harvest wants in the Grocery Line. Consult us on Prices. They are Right.

WE SELL AND RECOMMEND  
**Wampole's Extract of Cod Liver**  
The Best Tonic for Coughs, Colds, Influenza and Grippe

IT IS better than ordinary cough medicines, for it reaches the seat of the trouble, relieves the cough and supplies continual treatment to build up the system to withstand future attacks. A splendid blood and body-building tonic for both young and old who take it regularly.

Price - \$1.00

**The Champion Pharmacy**  
Druggists and Chemists

## Champion Theatre

Thursday & Saturday, September 12-14

WILLIAM HAINES in

### "A Man's Man"

With Josephine Dunn and Mae Bush

In her home town they told her she looked like Greta Garbo. He had taken a course on "How to Succeed" in ten lessons. Here is their romance—Hollywood the place. They are married but that is only the beginning. Laughs and pathos, and thrills and action trip over each other in this great picture made from the stage sensation by those who made "Excess Baggage."

Extra good Laurel & Hardy Comedy, called "Double Whoopee."

THIS WEEK

### Caught in the Fog

May McAvoy - Conrad Nagel

Coming: Hoot Gibson in "King of the Rodes."

NOTE—Jiney Dance Every Saturday Nite.

## The Savoy Cafe

(Now under the supervision of Mr. A. McLeod)

A Trial will be Appreciated

Quality—Quantity—Service—I aim to please.

Week Days, a Club Lunch Dinner, Price 50c

Also a la Carte Service with Prices Reasonable

A. McLeod, Proprietor

## Child Welfare Clinic Arranged

The regular meeting of the Champion Women's Institute will be held at the home of Mrs. J. N. Beaubier, on Tuesday afternoon, September 10th. Mrs. Beaubier will demonstrate Angel Food at 2:45 sharp, after which the business meeting and program will be given. Report of the Constituency Conference by the delegate, Mrs. Bastin and a paper on Education and Better Schools by Mrs. Wise will be interesting features. Business matters of importance will be discussed and a full attendance is urged.

## Long Drought Broken Sunday

The rain on Sunday night and Monday stopped threshing and combining operations and the grain is drying so slowly as the result of cold and cloudy weather that but little will be done in this line this week. Outside the delay the threshing should be better as the result of the rain, as previously it had been very dusty and unpleasant to handle.

## Aged Calgary Resident Dies

Mrs. Mary Gibbons, aged 77 years, died late Friday afternoon at her residence, 517 Thirty-fourth, avenue west. She was born in County Galway, Ireland, and came to Calgary in 1915. She is survived by two sons, Michael and Thomas and by seven daughters, Mary, Julia, Bridget, Katherine, Margaret and Mrs. W. K. Duffy all of Calgary, and Mrs. Milford Sisson of Champion, Alta. A niece, Mrs. H. J. Hawkins, lives in Fairmont, W. Va.—Calgary Albertan.

Threshing was resumed on Friday morning by a large number of outfits, and some were reported at work on Thursday afternoon.

## Women's Institute Regular Meeting

A Child Welfare Clinic for pre-school age, has been arranged by the Champion Women's Institute. Miss E. M. Davidson, R. N. of the Provincial Public Health Department, who is specially trained in this branch of work, will be in charge. The clinic will be held at the home of Mrs. U. S. Alexander on Tuesday, October 1st, between the hours of 1 p.m. and 4 p.m. Mothers in the community are cordially invited to come and bring their babies, and children up to six years of age for free health examination. Remember the date, time and place.

## Fire Destroys Valuable Barn

A fire of unknown origin destroyed a barn on the farm of G. E. Volsey early Tuesday morning. The loss included several sets of harness and other tools and equipment, as well as a loft full of hay, the total loss reaching close to \$4,000, with \$1,000 insurance. A truck usually stored in the barn had accidentally been left outside that night, or it would have been included in the losses, as the fire was not discovered until the building was practically destroyed.

Miss Agnes Patterson left for Calgary, where she will attend Normal school. She was accompanied by Miss Marion who will take up Grade IX work.

Harry Smith's summerfallow yielded 20 bushels to the acre of No. 1 northern, and weighed over 60 lbs. to the bushel. Stubble crop returned 18 bushels of high grade wheat.

## RUBY GRAHAM

Teacher of Piano and Theory  
Re-opening of Classes September 6th and 7th.

Studio  
Residence of Mrs. G. M. Campbell, Phone 76.  
All pupils successful in June examinations.

## Preserving

Next week will be the time for preserving Peaches, Prunes and Pears.

Let us quote you our prices before you buy. You will be completely satisfied with your purchases and you will receive prompt and courteous service.

## Saturday and Monday Specials

Santos Coffee, fresh ground to your order, per lb.	45c	Corn Starch 4 packets for	45c
Oranges, Valencia, small size 5 doz for	95c	B. C. Field Tomatoes per basket	45c
Certo, per bottle each	30c	Plum Jam 4 lb. tins each	50c
Golden Loaf Cheese per lb.	40c	Campbell's Soups 7 tins for	1.00

## Announcing

The arrival of the new fall and winter samples from Leishmans, Semi-ready and Tip Top Tailors, also Scores "BALA-CLAVA" Overcoats.

While you may not be ready yet to select your new suit or overcoat, we cordially invite you to come in and see them. No obligation to buy.

## THE JOPLINGS Men's Shop

## Harvest Meats

### One Ton of Hams & Bacon

2,000 Lbs. of Hams, Bacon, Picnics, Cottage Rolls, etc., to be sold to you this Harvest Time, at real honest to goodness Prices.

### LARD!

Money to be saved on all size Pails.

Glendale and Handy Pat Butter always in stock

## Champion Meat Market

## Right Now!

For Canning  
**Peaches**  
**Prunes**  
**Plums**  
**Bartlett Pears**  
and All PICKLES

Don't Wait. This Season all Vegetables and Fruits are Two Weeks Earlier.

## CAMPBELL'S

"Where They All Go."

## Cultural Treatment And Soil Moisture Conservation

(Experimental Farms Note)

Throughout the three Prairie Provinces the problem of soil moisture has assumed such prominence that particular interest lies in cultural methods designed to conserve moisture in the soil.

It must of course be recognized that soil moisture conservation has its limitations. It is not possible to store in the soil sufficient moisture to carry a crop through its growing period to harvest; some rain during the season is necessary. Experiments conducted at the Dominion Experimental Station, Swift Current, Sask. indicate that a wheat crop can dispose of comparatively large quantities of water during the growing period, more, in fact, than is received as an average year's precipitation, assuming this could all be used. Under the best possible conditions only a portion of the year's precipitation can be taken up by the soil. The presence of a considerable quantity of snow cannot always be considered as a source of available moisture. If the soil be frozen none of the water from melting snow can be absorbed. It is true of course that gardens enriched by windbreaks secure supplies of moisture from the winter's snowfall, but this is undoubtedly due to the fact that the soil thaws out before the snow in the wind breaks and thus receives water by irrigation. During heavy downpours of rain, a large amount of water never enters the soil but is lost by run-off. In one case, where observations were made, as much as 80 per cent of the rainfall was lost in this manner. Another source of loss is by evaporation. A series of small showers at intervals are of practically no value, beyond affording plants temporary relief, as the moisture scarcely penetrates the surface and quickly evaporates again. Very little can be done to avoid these losses but the growth of weeds causes by far the greatest loss of moisture from the soil and is one which in a large measure can be controlled.

In the grain growing areas of the Prairie Provinces, cultural treatment for moisture conservation can be grouped into two classes, land which is summer-fallowed and that which produces grain the year, or stubble land. The cultivation required for land to be summer-fallowed will necessarily depend upon the type of soil, weather conditions and kinds of weeds present. In some cases ploughing is necessary while in others equally good results are secured by the use of a duck foot cultivator only. The time of ploughing is not important provided the land previous to ploughing has been kept free of weeds. The ploughing under a crop of weeds or weeds and volunteer grain in July produces a summer-fallow which has been robbed of a considerable amount of its soil moisture by the growth of vegetation. Where comparisons are possible this loss is evident in a very striking manner particularly if the next season be one of deficient rainfall. At Swift Current this summer, wheat seeded on land infested with weeds until the ploughing in mid-July of last year showed, by its growth and appearance, the effect of deficient moisture which in turn had been produced by the growth of weeds during the previous season.

The treatment of stubble land presents a different problem to that of summer-fallowing as the aim is to conserve the meager supply of moisture stored in the soil during the fall and spring months. Inspection of a wheat stubble field frequently shows the soil to be moist to a depth of one or two feet only and below this to be quite dry. There is not sufficient evidence to connect the moisture conditions with fall or spring ploughing of wheat stubble land, but as a rule fall ploughing gives best results in districts where moisture is more abundant and spring ploughing where moisture deficiency sometimes occurs. The experience of the last two seasons indicates that, where spring ploughing is practiced, it is essential to seed as soon after cultivation as possible so that sufficient moisture remains in the surface soil to ensure germination. For a more detailed discussion of this subject the reader is referred to the bulletin "Crop Rotations and Soil

Management for the Prairie Provinces" a copy of which can be secured free by writing to the Publications

Branch, Department of Agriculture, Ottawa, Ontario.

## EXPECTING THE BEST

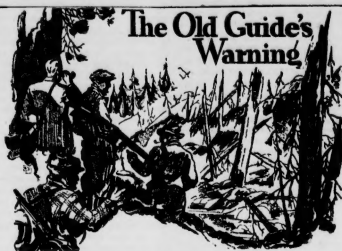

Farmers dealing with the United Grain Growers expect the best in service and treatment.

They have a right to expect it, for this is a farmers' and it has the experience, the resources, the organization and equipment to give such service and treatment.

Deliver your grain to

## UNITED GRAIN GROWERS LTD.

Elevator at Champion.

The old guide knows that careless hunters cause many forest fires resulting in the destruction of excellent hunting grounds as well as valuable timber. The good hunter is careful with fire in the woods.

Issued by authority of Honourable Charles Stewart, Minister of the Interior.

## There are 96 reasons for CHEVROLET supremacy

THERE are ninety-six reasons why Chevrolet is the world's most popular automobile. They are the ninety-six superiority features that distinguish the Outstanding Chevrolet. From the smooth, powerful Chevrolet Six-Cylinder engine to the masterly Fisher Bodies, every feature of the Outstanding Chevrolet is a quality feature designed to give better performance, greater satisfaction and longer life.

Your Chevrolet dealer will be glad to show you the ninety-six reasons for Chevrolet supremacy. Better still, he will arrange a demonstration for you and let you see in action the results of Chevrolet's spectacular array of quality features. Come in and investigate this amazing Six, in the price range of the four.

### The Singing Fool

By HUBERT DAIL

Copyright, 1924, Warner Bros. Pictures, Inc.

## SYNOPSIS

Al Stone, the singing water and song writer at Blackie Joe's New York night club, is discovered by Marcus, the famous Broadway revue producer. Molly, the ballad singer at Blackie's, who had treated Al disdainfully, makes up to him when she finds he is on the way to fame. They are married and Al and John Perry, Al's best friend, become a famous revue performer. Meanwhile, Grace, the cigarette girl at Blackie's, who loved Al without his knowledge, is left behind. Molly and John Perry, Al's best friend, become interested in each other, but hide their feelings. One night Molly tells Al she is going to have a baby. He is overjoyed, but she is angry with her recent, belated, and unreciprocated love. Al comforts her, telling her she will love the baby when it arrives.

## CHAPTER XI.

The months passed; the time approached for Molly's baby to be born. During that period she was kinder to Al, and more solicitous of his welfare. And, somehow, she and Al did not see John Perry so often. Perry seemed to be called out of the city a great deal of the time on business.

Al went about his work in a state of happiness. At home was his lovely Molly, quiet-eyed, soft-spoken, patiently waiting. Undoubtedly the mystery of the approaching event had changed her for the better and as Al predicted, she too wanted the baby.

Then the night came when she was rushed off to the hospital, and Al paced the white corridors, sat down in the reception room, tried to read the dog-eared magazines he saw lying about, smoked countless cigarettes and—waited for the good word. Occasionally a white-robed nurse passed, giving him a sympathetic glance. Then the moment came when one of the nurses beckoned to him. He sprang forward.

"You may come now, Mr. Stone. The baby's born."

"How is it, what is it?"  
"It's splendid, it's a boy!"  
"Has he any?"  
"She's splendid, too."

Al tiptoed softly into the white room, behind the nurse. There Molly, bolstered up slightly by pillows, paler than he had ever seen her before. She gave him a weak smile and lying beside her was a small bundle, which suddenly gave off a high, piercing cry. Al stepped over, ever so cautiously, until he stood beside the bundle. Then he looked down into the wrinkled, red little face.

"Isn't he beautiful! He's a boy?"  
While the nurse quietly slipped her hand over her mouth to hide a broad smile, Al leaned over Molly and kissed her gently. He felt one of her arms go weakly about his neck.

"Oh, you happy?" she whispered.  
"Are you happy? You're both of you just wonderful!"

"Yes! I—I'm happy too," murmured Molly, and suddenly she began to cry. Al was astonished, but he patted her lovely golden hair, and re-

his songs and he insisted that her photographs appear on every one of the music sheet covers and that her name appear in type twice as large as his own name.

Yet a close observer would have seen that Molly wasn't happy. She had fame, money, a happy home, an adoring husband and a beautiful child; yet something seemed to be missing. Frequently she was moody at home and sharp with Al. But she loved her so and was so happy with Junior that he passed over those temperamental outbursts.

John Perry had called more frequently after Molly's recovery and returned to the stage. He often dropped in at the sumptuously furnished Stone apartment and every so often he took Molly to dinner when Al was busy with a song that had to be finished in a hurry.

At Blackie Joe's place, just off the Village, Grace Farrell heard news of Al and Molly as it percolated down from Broadway. When she learned that Al's baby there was a little sharp pain in her heart for a moment, then she smiled radiantly and dashed off to send him a congratulatory telegram. So Al and Molly had a baby? Grace wondered what it was like and longed to see it.

One day Grace was walking on the Avenue, window shopping and dreaming, when she saw Molly's face at the window of a blue Rolls-Royce. Just then the Avenue lights went red and the car drew up at the corner to wait for the traffic.

Now Grace saw a man sitting beside Molly—a stranger. Grace stopped, fascinated by the sight of the smiling woman, who was so delicately applied make-up and a little like Paris hat. Without thinking, Grace looked down at her own clothes. They were not shabby, but they looked poor beside Molly's gorgeous raincoat.

Then a strange thing happened. As the driver of the Rolls-Royce prepared to start his car with the change of lights, Grace noticed Molly slip his arm casually and possessively about her. As Molly turned to kiss her with a smile, she saw away, while Grace stood rooted to the spot in amazement.

(To Be Continued.)

## May Join Expeditions

## Great Britain Likely To Ask Canada To Take Part In Polar Expedition

Canada and Australia may be approached in connection with British expeditions to the North and South Poles for exploratory and meteorological purposes within a few years. Leading meteorologists of the Empire met in conference the other day at the Ministry to consider weather forecasting in relation to the Empire generally, and in particular to aviation and agriculture within the Empire.

Dr. G. C. Simpson, who is director of the British Meteorological office, said that Great Britain had one of the most ably organized meteorological services in the world.

Mr. Simpson said: "We cannot allow exploration of the polar regions to be done by foreigners. It is up to us to take our share in it. If there is going to be a definite attempt to investigate the polar regions, North and South, our part. We shall approach Canada and Australia about sending out expeditions."

The British-Australian expedition is already on the first leg of its journey to the polar regions of the south, under Sir Douglas Mawson, but the purpose of this expedition is mainly scientific study of the economic and fishing resources of that section of the world.

Knowledge of meteorology was a vital need for the success of Imperial conquest. Lord Thomson, Secretary of Air, pointed out. He believed that in a few years, airplanes and aeroplanes might be guided just as ships on the sea were navigated at present, but if this was to be brought about there would have to be a great advance in meteorological knowledge.

## A Notable Record

In 1852, Arthur Hawkes tells in an article in the *Windsor Free Press* Brandon had seven leavers. Four, Clifford—Sifton, Arthur Sifton Thomas Mayne Daly, and George H. Caldwell became Cabinet Ministers, and two, W. A. Macdonald, and A. Henderson, judges in British Columbia. That record can hardly be beaten in Canada.

Sir William Morris, Great Britain's leading automobile manufacturer, told the press that every foreign car imported to the British Isles means the loss of a year's work for one Englishman.

Clouds are sometimes ten miles thick.

## Chew and Grow Thin

You know that certain foods furnish body energy without adding uncomfortable fat.

Sugar is one of these foods, supplying needed energy in concentrated form.

WRIGLEY'S gives you sugar and flavor. These ingredients dissolve in your mouth.

What pleasant way of taking sugar?

## Thrive On Unusual Fare

Australian Flock Rice Is Good Food For Sheep

James R. Ross, owner of Uprick sheep station, on the Murrumbidgee river, Australia, in what is known as the Riverina District, has achieved success in feeding his sheep rice. The district had experienced a long dry spell, and the stock had been able to get next to nothing of the paddocks. Mr. Ross had been feeding 3,000 merino huggies on maize and oats, and eventually he decided to try rice. For several weeks, until the drought broke, the sheep were given half a pound of rice five days a week, and on Mondays and Thursdays they were fed on wheat hay. The sheep thrived on the unusual fare, and are in excellent condition.

Internally and Externally It Is Tasty.—The crowning property of Dr. T. B. Foster's Kidney & Bladder Pills is that it can be used internally for many complaints as well as externally. For sore throat, cold, whooping cough, to give the body a tonic, and many kindred ailments it has qualities that are unsurpassed. A bottle of it costs but little and there is no loss in always having it at hand.

## German People Favor Canada

Believe Dominion Has Best Working To Take Part In Polar Expedition

Western Canada is an excellent country to come to, for not only are working conditions better there than elsewhere, but the new immigrant can get start on the soil at a very low cost, said Kurt Martin, new German consul for the four western provinces, speaking in Regina last week to members of various German societies.

Mr. Martin said that Germany had no definite immigration policy and though her people were encouraged to go to the African colonies, they were not permitted to Canada, where friends had "made good."

Why suffer from corns when they can be painlessly rubbed out by using Hottel's Corn Remover.

## Ancient Tree Destroyed

Five-Hundred-Year-Old Elm In England Prey To Fire

An ancient tree 500 years old at Hatley Wood, Dorset, under which Bishop Latimer preached in 1535, has been destroyed by fire. The blaze started among dead leaves in a cavity in the trunk. The tree, which was of enormous girth, was said to have been one of the largest elms in the country. Henry VIII, when on his way from Hatfield House to London, heard Bishop Latimer preaching under it.

## Her Little Boy Was Very Ill With Summer Complaint

Mrs. Ray Fisher, Lehart, Sask., writes: "For over a month, last summer, my little boy was very ill with summer complaint. He got so bad there began to be traces of blood in his stool, and anything he ate would not stay on his stomach very long. He became so weak he could not stand up. A neighbor recommended

"I discouraged and in despair I sent for a bottle, not expecting any more benefit than from the many other medicines I had used. I noticed a change after he had taken ten or twelve, and before the bottle was half used he was the same healthy boy he was before he took sick."

Put up only by The T. Milburn Co., Ltd., Toronto, Ont.

## Britain's Atlantic Fleet

Finest Naval Unit In Existence and Largest In World

The Atlantic fleet becomes the greatest single fighting force in the world by the decision of the admiralty to recall five battleships of the Queen Elizabeth class from Mediterranean waters to home ports and the Atlantic fleet.

The transference of the battleships is not only an important change in distribution of the navy, but an entirely new departure in British naval policy, means the balance of power is removed from the Mediterranean to the Atlantic.

The Atlantic fleet will consist of 14 capital ships, among them the two most powerful vessels in the world, the Rodney and Nelson, and the largest battle cruiser in the world, H.M.S. Hood.

The Queen Elizabeth vessels are approximately 30,000 tons, armed with eight 15-inch guns. These five will join the two Nelson class vessels, the Hood, the four Iron Duke battleships, and the battle cruisers Renown and Repulse, to make the most formidable fleet assembled on peace time duty in the world.

Obviously the fleet has been brought to the Atlantic for the removal of the battleships. But there is more behind the decision than a mere question of detail. One suggestion is that the Admiralty is influenced by the fact that these big ships are now in the British dockyards, a great deal of maintenance work to compensate for the loss by reduction of the replacement program.

The fleet, in the Mediterranean, will be cut to five capital ships and four of the newest "Washington" 30,000-ton cruisers.

One Man Starts Work On Millions Of Books In British Museum

One lone man is working on the job of restoring the 20,000,000 books in the British Museum in London. For the past fourteen years he has been rehabilitating the dusty volumes in this world famous museum, and there are only 18,700,000 more to fix. If his present rate of progress continues, he will complete his task in just 1,228 years—not unless somebody publishes another book in the meantime.

## SAVE THE CHILDREN

In Summer When Childhood Ailments Are Most Dangerous

Mothers who keep a box of Baby's Own Tablets in the house may feel that the lives of their little ones are reasonably safe during the hot weather months. But in fact, children and diarrhoea carry off thousands of little ones every summer. In most cases because the mother does not have a safe medicine handy to give promptly. Baby's Own Tablets relieve these troubles if given occasionally to the well child they will prevent their coming. The Tablets are guaranteed to be absolutely harmless even to the newborn babe. They are especially good for summer ailments. They regulate the bowels and keep the stomach sweet and pure. They are sold by medicine dealers everywhere at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

## Owens Property In New York

Among the owners of valuable real estate in New York is King George V of England. It is revealed by the Associated Press. Several Fifth Avenue sites and plots of land owned by King George V are held by the British crown.

Among them is reputed to be a site on the avenue, of the show store of the largest round window in the world—a cylindrical sheet of glass completely encircling a show case floor which lowered like an elevator to the basement to be trimmed and then lifted again hydraulically into place.

All the properties of the British monarch are in the custody of a holding and management corporation downtown. It frequently adds to the surprise of those who other realty under its care, but never makes public the owner's name, and thus keeps secret the exact locations here of the holdings of its royal client.

Nearly all children are subject to worms, and many are born with them. Bysure then suffering by using Mother's Friend Worm Expeller, an excellent remedy.

## Can Be Relied On

This same engine and boiler which British engineers installed in the "Mascarene" in 1907, drove the ship across the Atlantic on her record trip recently. The British workman is always reliable and thorough.

Home sense is properly much praised. But automobile sense nowadays is even a more valuable commodity.

Actress: "Did he really tell you I had stage fright?"

Her rival: "No, he said you were one."

The first clock was made in the thirteenth century.

Kill that corn with Minard's Liniment.

MOST people rely on Aspirin to make short work of their headaches, but did you know it's just as effective in the worse pains from neuralgia or neuritis? Rheumatic pains too. Don't suffer when Aspirin can bring such complete comfort without delay, and without harm; it does not affect the heart. In every package of Aspirin you will find proven directions with which everyone should be familiar, for they can spare much needless suffering.

## Big Job Ahead

One Man Starts Work On Millions Of Books In British Museum

One lone man is working on the job of restoring the 20,000,000 books in the British Museum in London. For the past fourteen years he has been rehabilitating the dusty volumes in this world famous museum, and there are only 18,700,000 more to fix. ets, nails, bolts, nuts, screws, staples, etc.

We have been exceptionally fortunate in securing the local agency for the Atwater Kent screen grid radios.

At Kent is a year ahead in radio reception. Come in and hear this set and you don't need to wait until evening for we get them in the day-time—Winipeg, Saskatoon, Regina, Moose Jaw, Hays, Spokane, and numerous others.

Geo. Rhodes has purchased a McGray tractor. Geo. also took out a drum of Wm. Penn oil at the same time.

Optic Reid, author, was visiting the Bath Valley in California one time and he seemed very much impressed to know that he was actually below sea level.

Approaching a native, he asked: "Say, Stranger, what altitude is this?" "Altitude? Here? Hell man, we ain't got none."

There is sufficient faith in the world to move mountains, but there are always doubters on hand to think dynamite more effective force.

Did you ever stop to think how much repairing the human race needs? Think of the doctors, dentists, and lawyers—all repair men—trying to repair something that has gone wrong.

There is sufficient faith in the world to move mountains, but there are always doubters on hand to think dynamite more effective force.

be delivered on the day of publication.—Contributed.

Jos. Hicks, barrister, of BAKER, will be at L. J. Adams' office every Tuesday and Friday where he may be consulted.

Ernest Rhodes has taken over the Theriault coal mine and will operate it in future. Geo. Rhodes was formerly interested.

The new bus system was inaugurated on Tuesday and should prove a decided convenience to residents in Champion and vicinity. Kramer's Garage is the headquarters in town.

A coyote entered a small house adjoining the main house on the farm of T. Sisson on Wednesday night and killed twenty five young chickens, carried them outside the door and left them in a nice pile. Mr. Sisson is now armed with a repeating rifle and is out to kill at sight.

Louis Fath has purchased the residence formerly owned by A. Versluis and will remove it from its present site to a new location.

A. Baker has purchased a new Willys-Knight truck for use in gas and oil deliveries.

B. M. Roberts and A. W. Jopling were visitors to Lethbridge on Wednesday.

The mountains were in the area where snow fell in the recent storm and are now covered with a layer of white.

Work on the community hall will soon commence in earnest and the whole building will be completed as far as the contractor is concerned.

We have been wondering what had happened John Cook, he has been looking so pleased with everything for some time. It's a new Marquette car.

N. M. St. Peter, of Milo, has acquired a gasoline launch for use on Lake McGregor, which has been enjoyed by several visitors from Champion.

Mr. John Jopling was a tea hostess on Friday in honor of Miss Gladys Woodhull, who left on Monday for Cardston, where she is on the high school staff.

There is a decided shortage of houses available for those who would like to spend the winter in town. Every possible place has already been secured.

Mr. and Mrs. Danne Chamberlain of Kirkcubright in Champion, as the elevator which Mr. Chamberlain was operating is closed owing to crop failure in that district.

Mr. and Mrs. J. W. Murphy of Travers, were in town on Thursday. Mr. Murphy reports his crop is yielding from seven to ten bushels from breaking and shelling crop.

Using a John Deere combine and an Allis Chalmers tractor, Frank Raucher threshed 1,700 bushels of wheat in one day off summerfallow. The grain was delivered the same day to the elevator.

M. P. Diemer is one of the latest arrivals from the coast, and he seems to be enjoying himself in his old surroundings, although he considers Vancouver one of the finest places to live on the continent.

Mr. George Dooley, of the Calgary Herald staff, has been preparing a whole page write up for Champion and district. A number of photos have been taken and a history of the last five years of progress is now being prepared. The cost is being borne by the twenty or more enterprising new subscribers who have been secured by Mr. Dooley. With the arrival of the Blue Line Bus from Calgary, the "Herald" can now

Mrs. Stout is reported as progressing favorably at the Holy Cross hospital, Calgary.

L. H. McAulay of Detroit, Mich., has been with his brother, Dan McAulay during the harvest. Mr. McAulay is employed in a wholesale grocery when at home, but expresses himself delighted with the change from an inside job to the harvest fields.

RULTEDGE AIR SERVICE, Ltd.

## Job Printing

Executed Promptly, Neatly,  
and Satisfactorily at the  
Chronicle Office.

## Society Brand Clothes

## We have never used the word "cheap"

That word carries a meaning that doesn't apply to the merchandise we sell. It seems to suggest that we can give you something for nothing. And we can't.

Take Society Brand Clothes. They cost a bit more than the average. They simply can't be sold for less than forty dollars. And when you buy them you're paying for everything you get.

But here's the point: The things you do get—such as fine fabrics, really expert tailoring, and unequalled smartness of cut—are of the sort that give you more satisfaction than you can measure in money.

That's value—as we understand it. Come see our new showing of Society Brand, and we believe you'll feel the same way!

## The Joplings

## British American Oil Co., Ltd.

If you want Gasoline, Coal Oil or Lubricating Oil in a hurry, phone us.

We have Modern Equipment in every way. Electric Motor, pumping Gasoline or Coal Oil 2,500 gallons per hour.

Phone your requirements—we deliver when you want it—where you want it.

Try "Autolene" Lubricating Oil, any grade to suit your tractor. There is none better.

B. M. ROBERTS, Agent.

## LOCAL AND GENERAL

Miss Rheta Campbell is in Calgary, taking up Grade XII work.

Vulcan is arranging to submit a bylaw to raise \$7500 for fire equipment.

Miss Helen Bastin is now in Lethbridge taking training as a nurse in the Galt Hospital.

Mrs. F. C. Alcock is away on her regular trip in connection with the Women's Institute.

The price of wheat is strengthening gradually and dreams of \$2.00 wheat may still come true.

Mr. and Mrs. Art. Anderson of Calgary, were visitors with Mr. and Mrs. Harry Smith this week.

Miss Ethel McDougall and Miss Sarah Fleming are attending the Normal school in Calgary.

Mrs. T. R. Jopling returned from Milo, where she had been visiting her daughter, Mrs. N. M. St. Peter.

It is difficult to realize that this is the middle of harvest time. There are not enough men around.

Woolen underwear was in demand during the first days of this week, the weather being decidedly cold.

The Calgary Power Co. is extending its list of towns served, Cardston and MacLeod being late acquisitions.

The Bay-Merland people are continuing shallow tests in this vicinity on a large scale, according to reports.

The O. E. S. met on Thursday evening with a large attendance, there having been no meetings in July or August.

K. R. McLean R. O., of Anderson & McLean, Sight Specialists, 288 8th Ave. West, Calgary, will make his monthly visit to Champion Friday, September 27th. At the Drug Store.

The last link in the all graded highway from Lomond to Calgary, via Milo, has been completed. It will be used almost invariably by residents of the districts East of Lake McGregor valley, when motorizing to Calgary.

At the W. I. Conference, held at Vulcan on Aug. 23rd, Champion was chosen as the meeting place for next year on the invitation of Mrs. J. N. Beaubier, president of the Champion local. Mrs. F. C. Alcock and Mrs. Beaubier were among the speakers at the conference.
